This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2010 in the subject Sociology - Individual, Groups, Society, grade: 1,0, University of Auckland (Social Science), course: reading paper, language: English, abstract: It is well known that the demands associated with paid work can be at conflict with required housework, as well as the leisure aspect of family life. The major demographical changes in the past few decades have seen this issue become increasingly wide spread. Not only has the number of women in the labour force seen an increase, but also the number of dual earner couples in America increased from 35.9% in 1970 to nearly 60% in 2000 .
