GRIN Verlag GmbH Nov 2013, 2013. Taschenbuch. Book Condition: Neu. 210x148x11 mm. This item is printed on demand - Print on Demand Neuware - Doctoral Thesis / Dissertation from the year 2010 in the subject Business economics - Miscellaneous, grade: -, , course: PhD, language: English, abstract: ABSTRACT In present day economic turbulence, the new computing and communication techniques are changing our concepts of time and space, altering traditional patterns of work and spurring the growth of small entrepreneurial companies. But in both the developed and developing countries, many new ventures fail and for the few that survive and grow, there are numerous problems. A challenge, then, is to transform the traditional ways of supporting small enterprises and the related programs of international assistance - in order to make them more cost effective for today's competitive environment. Business Incubation is emerging as one of the most innovative instruments to support small enterprise creation and development all over the world. This is relatively a recent innovative system, derived from the earlier SME support programs but with its own distinctive characteristics. The concept of nurturing start-up and early-stage groups at managed workspaces appears straightforward but is complex in structure and execution....
