Reviews

Definitely one of the better book We have possibly read. We have read through and i also am certain that i am going to gonna study once again yet again in the foreseeable future. Once you begin to read the book, it is extremely difficult to leave it before concluding.

LAP Lambert Acad. Publ. Mrz 2010, 2010. Taschenbuch. Book Condition: Neu. 220x150x6 mm. Neuware - This study evaluates the impact of delivering fire investigation studies utilizing a reusable learning object in the form of a CDROM with embedded virtual fire scene scenarios. The learning outcomes of four student cohorts are studied and quantitative and qualitative data collected which provides an evaluation of the students learning experience. Preliminary evaluation of the impact of learning fire investigation skills via the online and virtual environment indicates support for this mode of learning delivery. Unique characteristics of the virtual environment in fire investigation studies are identified as providing a distinct advantage over the use of real time fire scenes for subject assessment purposes. These findings show that the use of reusable learning objects in investigation studies shows promise in providing authentic learning experiences and providing foundational knowledge and skills transferable to real world situations. 108 pp. Englisch.
