Bibliogov, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.The Big Idea of this standards-based unit is transportation systems move people and goods. Transportation vehicles consist of subsystems that must function together for a system to work effectively. Students will become familiar with NASA's plan for human space exploration. The following are some of the objectives of the 5E (Engage, Explore, Explain, Elaborate/Extend, Evaluate) lessons: Describe how a system may lose efficiency or fail if one of its subsystems is missing or malfunctioning. Design a space transportation system that will complete a lunar mission and identify the processes it would require. Identify the subsystems that must function together for a transportation system to work effectively. At the conclusion of the unit, students develop a subsystem for a manned spacecraft bound for the moon. Student sheets and rubrics are included.
