Merely no words to clarify. I could comprehend almost everything using this published e publication. It is extremely difficult to leave it before concluding, once you begin to read the book.

To even a superficial student of American history it means one episode and one only, an episode to which no southerner can yet refer without heightened color, no northerner without discomfort. But we do not recall such a memory to promote pessimism - only to remind ourselves that it was reconstruction of the South by the North that failed and that proved more destructive than the war itself. The reconstruction that succeeded was undertaken by the South and was carried through in spite of all handicaps. And the reminder may help us to estimate the permanent and the passing, the fundamental and the external in the Europe of 1919. For it may be that some of us watch too exclusively the labors of the Congress at Paris and ignore the pathetic and powerful struggles of the people of Europe for security, freedom and self-realization. The problem of reconstruction may be approached from two angles. One phase of it is necessarily somewhat formal and external.
