

## The New Civics; A Textbook for Secondary Schools (Paperback)

Filesize: 9.25 MB

### ***Reviews***

*It is one of the most popular ebooks. It really is simplified but exciting in the fifty percent from the pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.

Rarebooksclub.com, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1921 edition. Excerpt: .a water plant is relatively very small; and we should notice that it is in connection with operation that municipal ownership has been most defective. On the other hand, the initial cost of a water system is usually quite high.<sup>1</sup> The real reason for municipal ownership of municipal water supply is not economic but social. Water is far more a public necessity than even light, transportation, or telephone service. The ordinary water supply is used for drinking by a very large percentage of the city dwellers. Every household needs an additional supply and every house with grounds uses a large amount. It is, therefore, necessary and desirable that the water should be not only pure, cheap, and abundant, but that it should be carried to all households within the city limits. Since epidemics of typhoid and some other diseases have been traceable to impure supplies of water, cities are willing to go great distances to get pure water<sup>2</sup> and to incur considerable expense in installing filtering plants, whereas private companies, interested in profits, would do neither. Moreover, many cities have been farsighted and have secured sources which will give abundant water in decades to come, whereas private companies were far more content to look after only the immediate needs of the community. Last but not least, municipal ownership and management has not only reduced the price of water in most communities, but has accumulated a surplus for improvement and <sup>1</sup> It is necessary to...
