Pure and Applied Differential Geometry - PADGE 2012

By Joeri Van der Veken

Shaker Verlag Dez 2013, 2013. Buch. Book Condition: Neu. 218x156x22 mm. Neuware - This book contains the proceedings of the International Conference on Pure and Applied Differential Geometry PADGE2012, which was held at KU Leuven, Belgium, from August 27 th till August 30 th 2012. The main topics of the conference were minimal submanifolds, Lagrangian submanifolds and related topics, affine differential geometry and Lorentzian geometry. What was intended at first to be a small workshop within the framework of the bilateral collaboration between KU Leuven and Tsinghua University, Beijing, grew out to a conference with almost 100 participants from all over the world. Additionally, this book is dedicated to the main organizer of PADGE2012 Professor Franki Dillen of KU Leuven, who sadly passed away in April 2013 after celebrating his 50 th birthday one month earlier. It was decided to include in this book some additional articles of colleagues and friends who collaborated closely with Franki Dillen. The selection of the articles and the reviewing was done by the scientific committee according to international scientific standards. 300 pp. Englisch.

Reviews

It is one of the most popular publications. It is actually written in easy words instead of confusing. You will like how the author created this book.

-- **Art Gislason**

Extensive guideline! It's this kind of good go through. Yes, it really is playful, continues to an interesting and amazing literature. I am just pleased to inform you that this is basically the greatest book we have gone through inside my own life and could be the greatest pdf for possibly.
